# SURA Series

Electric High Intensity Halogen Infrared Heater

SURA are short wave heaters which are more efficient for outdoor heating and spot heating, due to their nature of travel through air. By this method, a smaller capacity heater can achieve more effective heating.

SURA heaters also offer instant heat, >90% emission within one second of operation, and 85% of consumed energy being transmitted into infrared heat.

Long life lamps offer 5,000 hours of operation.

- Four models with heat capacities of 1.5kW, 2.0kW, 3.0kW & 4.0kW
- Fashionable design to suit the aesthetics of restaurants & cafe's
- IP55 Protection
- Custom designed parabolic reflector with minimum energy loss
- Made from corrosion resistant and robust materials
- Available in black or white finish

**SPECIFICATION GUIDE - SURA Series**

| Model          |    | GSS15                 | GSS20 | GSS30 | GSS40 |
|----------------|----|-----------------------|-------|-------|-------|
| Power          | kW | 1.5                   | 2.0   | 3.0   | 4.0   |
| Current        | A  | 6.8                   | 8.7   | 13.0  | 17.4  |
| Supply voltage | V  | 230V 1PH N & E - 50Hz |       |       |       |
| Weight         | kg | 2.0                   | 2.0   | 3.5   | 3.5   |

**Dimensional Data**

**GSS15 & 20**

**GSS30 & 40**
