# SURA Plus Series

Electric High Intensity Halogen Infrared Heater

SURA Plus are short wave heaters which are more efficient for outdoor heating and spot heating, due to their nature of travel through air. By this method, a smaller capacity heater can achieve more effective heating.

SURA plus heaters also offer instant heat, >90% emission within one second of operation, and 85% of consumed energy being transmitted into infrared heat. Long life lamps offer 5,000 hours of operation.

- Two models with variable heat capacities - 1.2 to 2.0kW & 2.4 to 4.0kW
- Remote control supplied as standard
- Five power levels using the hand remote
- Fashionable design to suit the aesthetics of restaurants & cafe's
- IP55 Protection
- Custom designed parabolic reflector with minimum energy loss
- Made from corrosion resistant and robust materials
